

Price Surge System - P3 Trades Form

I believe that it is the artist in me that allows me to see patterns differently on the equity price charts. The P3 Squeeze pattern is formed by two unrelated indicators. Truly, they have nothing to do with each other and yet, in a fortuitous discovery, I found that when they are placed on top of each other, they create a pattern when accompanied by other confirmations shows when an equity is ready to burst upward.

The most profitable trades, hands-down, are those that have experienced a pullback, find a bottom, reverse and then confirm an entry signal. The P3 pattern and its stages checks off all those boxes.

Once the indicators squeeze together to create the squeeze pattern, it goes through several recognizable pattern stages that tell the trader when the pattern is ready for entry, in trouble, resting, building up speed and when to exit.

Several years after the P3 pattern was discovered, and after a couple years of searching, I found the bearish (short) P3.5 pattern that was as easy to recognize as the P3 pattern.

These two patterns are the basis for the Price Surge System strategy.

The P3 patterns (long and short) can be applied to a variety of different time frames to create a flexible trade system for any market environment.
